

**UNITED STATES INTELLIGENCE BOARD  
SECURITY COMMITTEE**

SECOM-D-110  
12 September 1975

MEMORANDUM FOR: Deputy to the DCI for the Intelligence  
Community

SUBJECT : DCID No. 1/-, "Security Policy Guidance on  
Liaison Relationships with Foreign Intelligence  
Organizations and Foreign Security Services"

1. In July 1975 the DCI referred to the Security Committee a proposal by Admiral Inman on liaison relationships with the request that it be prepared in the form of a DCID. The Security Committee did so. Vote sheet actions by USIB members contained suggested changes by CIA. The USIB Secretariat sent the vote sheet suggestions back to the Security Committee for consideration of CIA proposed changes and DIA's suggestion that the DCID be issued at the Confidential level rather than Secret as circulated by the USIB Secretariat.

2. The Security Committee reviewed the proposed changes and accommodated the CIA's suggestions. While the Security Committee recognizes that there may be some justification advanced for classification, the Committee, with NSA dissenting, recommends that it be published as an unclassified document.

3. All members of the Security Committee have concurred in the attached draft of the DCID.

4. It is recommended that you indicate your concurrence below and forward the draft to the USIB Secretariat for appropriate action.
